## KEY FEATURES

What makes this product powerful

### Smart Admissions

Online application portal with merit-list generation, document verification, and seat allotment automation.

### AI Student Analytics

Early warning system flags at-risk students based on attendance, grades, and engagement patterns.

### Fee Engine

Flexible fee structures, scholarship deductions, and automated late-fee calculations built in.

### Exam Automation

Auto-generate hall tickets, process answer sheets, and publish results with one-click marksheet printing.

### Student & Parent App

Native mobile apps for real-time attendance alerts, fee reminders, and result notifications.

### Third-Party Integrations

Seamless connections to DigiLocker, Razorpay, SMS gateways, and WhatsApp notification APIs.
