KEY FEATURES

What makes this product powerful

- IPD & OPD Management**
Manage inpatient and outpatient workflows – appointments, queues, ward allocation, and discharge summaries – in one view.
- Diagnostics Integration**
Lab test requests, sample tracking, and result delivery directly to doctor and patient portals.
- Pharmacy Control**
Real-time drug inventory, prescription-linked dispensing, and expiry alerts to eliminate waste and errors.
- Smart Billing & Insurance**
Auto-generate bills, handle TPA and insurance claims, and reconcile payments with the accounts module.
- EMR – Electronic Medical Records**
Complete digital patient history accessible by authorised clinicians across departments and visits.
- Hospital Analytics**
Occupancy rates, revenue per department, doctor performance, and patient outcome dashboards for administrators.

BUILT FOR MODERN HEALTHCARE

Secure & Compliant	Cloud Based	Role Based Access
